

HELP SHAPE THE FUTURE OF STATE ROUTES 12 AND 113

State Routes 12 and 113 Resilient Comprehensive Multimodal Corridor Plan Development

The **Solano Transportation Authority (STA)** is developing Comprehensive Multimodal Corridor Plans (CMCPs) for State Route 12 (SR 12) and State Route 113 (SR 113). Since the previous corridor studies were completed in 2010 for SR 12 and 2009 for SR 113, the region has experienced changes in population, employment, development, and travel patterns, creating new transportation needs and opportunities.

Initiated in June 2026, this planning effort will evaluate current and future needs and identify strategies to make travel along and around the corridors safer, more connected, and more accessible for everyone.

Project Timeline

- 1 Fall 2026**
Round 1 Outreach
Existing Conditions
- 2 Winter 26/27**
Project Goals
- 3 Spring 2027**
Round 2 Outreach
Corridor Strategies
- 4 Summer 2027**
Cost Estimates
- 5 Fall 2027**
Submit CMCPs
for Adoption

What Types of Improvements Will the Plans Identify?

- Safer Travel**
Make roads, crossings, and routes to school safer.
- Better Mobility**
Reduce congestion and improve connections between communities and destinations.
- More Ways to Travel**
Improve walking, biking, transit, and other transportation options.
- Resilient Communities**
Prepare for emergencies, climate impacts, and environmental challenges.
- Benefits for Everyone**
Improve access to jobs, services, and opportunities—especially for underserved communities.
- A Stronger Economy**
Support businesses, efficient freight movement, and reliable infrastructure.
