LAZY 5 VIRTUAL WORKSHOP/WORKSHOP #2

Date: Tuesday, September 29 2026, 6 p.m. - 7 p.m. | Thursday, October 1 2026, 5 p.m. - 7 p.m.
Location: Lazy 5 Regional Park – 7100 Pyramid Way, Sparks, NV 89436

Both sessions presented results from prior public outreach events and the ongoing online survey conducted as part of the Lazy 5 Park Master Plan project. During both sessions, participants were informed that this information had directly influenced the development of three alternative concepts. Feedback was then gathered on what worked well and what could be improved within each concept. The sessions were intended to guide refinement of the master plan rather than select a single preferred concept.

Virtual Session

The virtual session was held online on September 29, 2026, from 6:00 p.m. to 7:00 p.m. The presentation included four boards summarizing program and amenity results from prior outreach events, four boards presenting online survey results, and three boards illustrating Concepts 1, 2, and 3. The two supporting amenity image boards used at the in-person workshop were not included. Participants voiced comments on the features they supported and the elements they believed should be improved within each concept.

Workshop #2

Workshop 2 was held on October 1, 2026, from 5:00 p.m. to 7:00 p.m. in the community room at Lazy 5 Park, 7100 Pyramid Way, Sparks, Nevada 89436. Participants were asked to sign in and leave their contact information. The open-house format allowed participants to move through the room and review the boards at their own pace. The first eight boards presented results from past public outreach events and the online survey. Three additional boards presented the concept alternatives, and two image boards provided visual examples of amenities included in the concepts. Workshop 2 did not repeat the earlier program and amenity voting activity. Each participant instead received one comment card for each concept. The cards asked, “What do you like about this concept?” and “What could be improved?”. This format encouraged participants to evaluate all three concepts and identify elements that could be carried forward or refined.

General Feedback

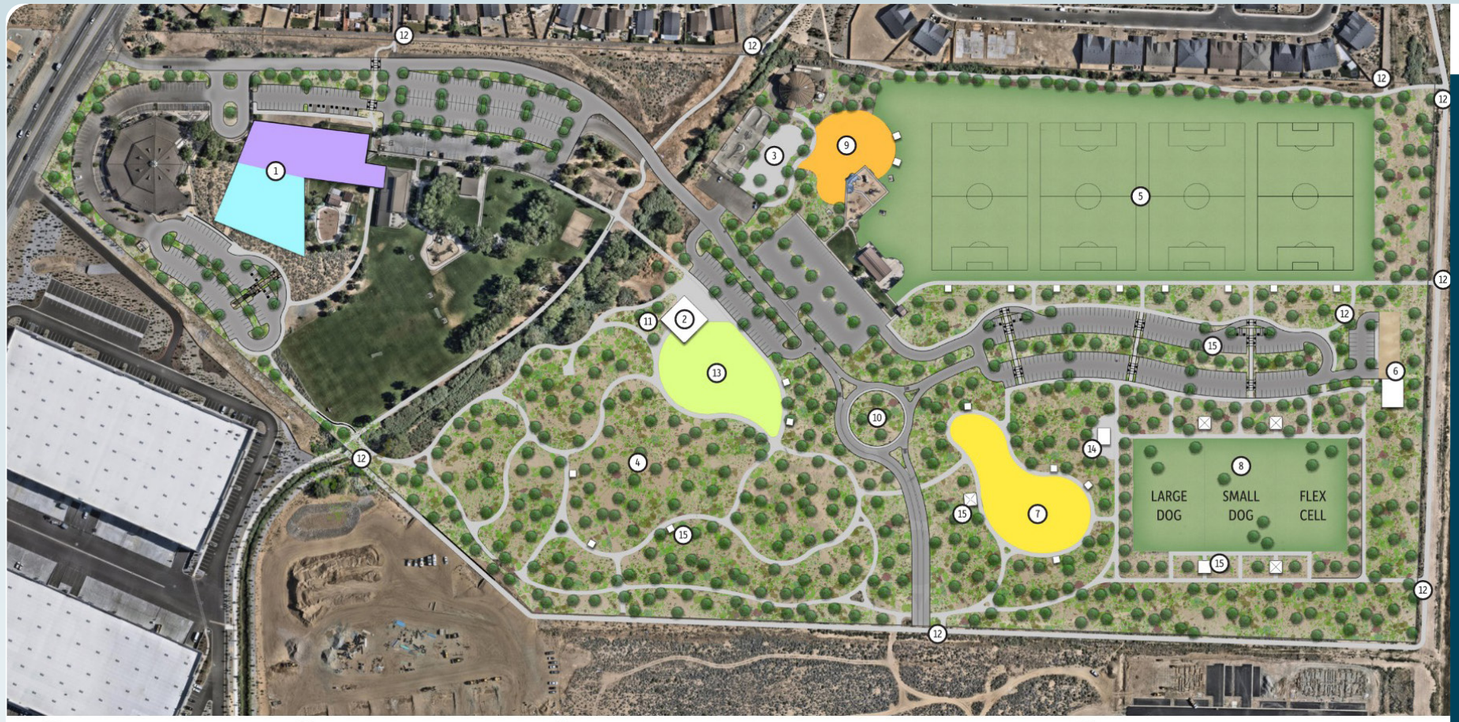

Feedback from both sessions generally supported aquatics and indoor recreation, court amenities, trails, natural areas, dog park improvements, adequate parking, and safe circulation. The in-person comments placed additional emphasis on restrooms, park access, parking locations, residential buffering, seasonal use, and the long-term capacity of recreation facilities. Concept 3 received more limited support where participants believed it provided fewer amenities or devoted too much area to disc golf. The pump track received clearer support during the virtual session, while the in-person comments more often requested changes to its size, location, or relationship to the dog park. Participants also expressed varying perspectives regarding project costs, with some supporting expanded recreational facilities despite higher anticipated costs and others emphasizing the importance of phased implementation, long-term affordability, and investment in amenities that would provide the greatest community benefit.

1 RECREATION/AQUATICS CENTER
2 TRAILHEAD/RESTROOM
3 SKATE PARK EXTENSION
4 EDUCATIONAL NATURE LOOP
5 MULTI-USE FIELDS (4)
6 MAINTENANCE YARD/BUILDING
7 PUMP TRACK
8 DOG PARK (THREE 1-AC CELLS)
9 PLAYGROUND EXTENSION
10 ROUNDABOUT
11 OUTDOOR CLASSROOM
12 TRAIL CONNECTION
13 NATURE PLAY ZONE
14 RESTROOM
15 PICNIC PAVILIONS

CONCEPT 1

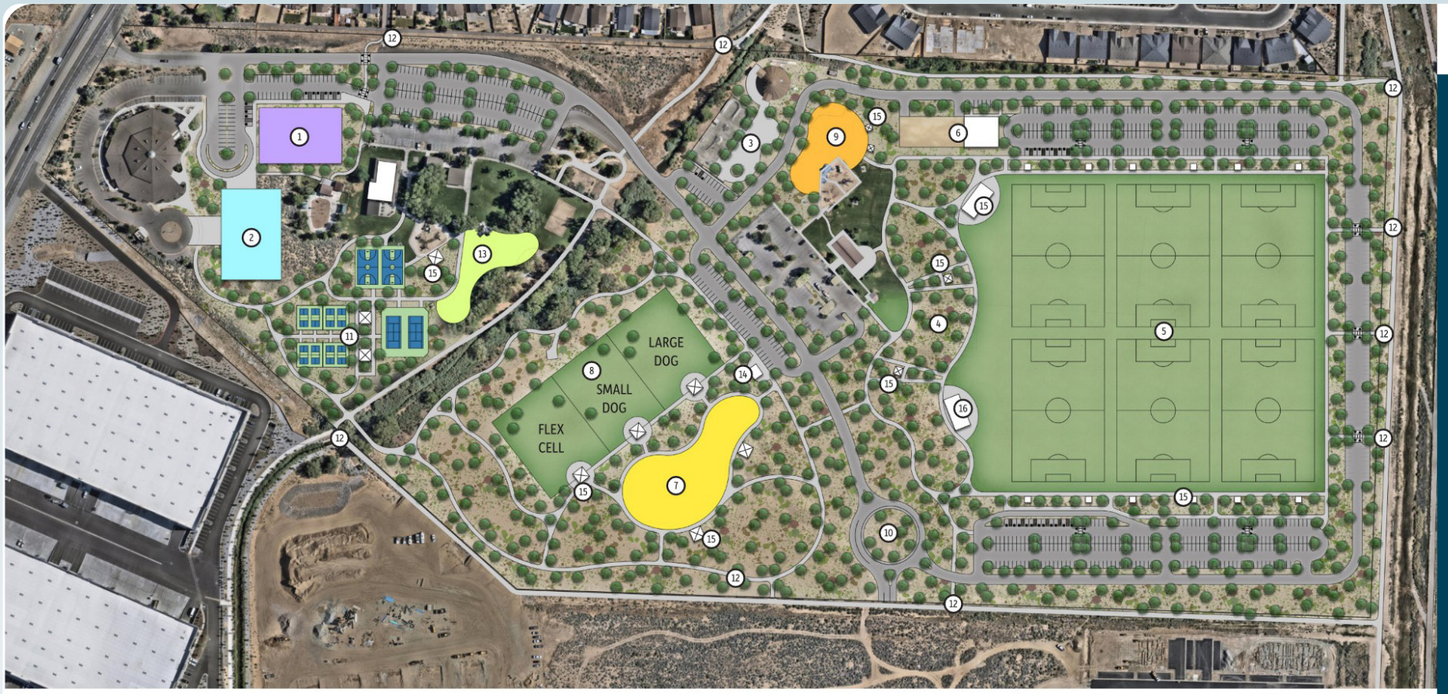

What do you like about this concept?

- Walk path is nice buffer area.
- Rec/Aquatics center;Multi-use field
- Soccer field placement; Parking through middle; flow is good; rec & Aquatic plan is good; like all the trails/ nature & linking to trails.
- Combo rec/aqua center
- Look less costly except Aquatic center/gym.
- Good layout roads; position of park
- Rec center by hive; dogs away from kids; trail to playground
- Like the huge nature play zone; rec. center.
- It keeps the parking lot away from residential area.
- Aquatics center! Yea!; Aquatics & rec center combined! Good you can omit picnic pavillions and put in the restrooms needed for multi-use fields.
- This is the best for me and my family. I am concerned about proximity to soccer fields as it is very noisey where I live. I am on Evangeline and back up to the park.
- 1) Access to park facilities must be improved! 2) Year-round drinking faucets for pets 3) Contour dog park areas to provide excellent drainage 4) Utilize the existing drainage facilities along the southern bounpry of the area used as a dog park now 5) provide restrooms for dog park patrons
- Overall good plan but- Nicole will be uploading a revised plan- please see her plan

What could be improved?

- More restrooms- not a port-a-potty!!
- Parking, esp. by aquatic center; 50M pool instead of 25 yard to help w/future growth
- Area for indoor rec center and pool is shortsighted should be bigger to better serve the community. More parking
- Parking issues between fields and dog park; Need park access from north; Need senior center/indoor pool for water aerobics
- Seems financially impossible; All the concepts need improvements to pickelball, outdoor or revamp the hive. Shade for outdoor courts.
- In & out access
- Swap dog park to where it is in concept 2; move nature area to where dog park is; include stage in lower park; Include some tennnis, b-ball & pickleball courts from concept 2
- Move the pump track from the dog area; another restroom
- Parking closer to concert area; more restrooms; less pumptrack; more access from north and west.
- Move to concept 2 (Dog park)
- Pump park by/ with skate park; more bathrooms; nature play zone biggerPerferably less foot traffic by residential areas and block off or build taller fencing for privacy for residential homeowners; add the courts to this concept; roundabout a little pointless.
- Add higher barriers to fence off the area to keep fot traffic away from residential area on particular by #5 and # 9. Add more amenities in the area below #1. Less grass by soccer field & make it a buffer between residential area.
- Numbers transpose the multi-use fields away from homes and no landscape on a low speed roundabout or around the roundabout and maintain the 2nd exit. Broaden second exit near the industrial stuff. Still needs protected L&R turns. I already avoid the spanish springs library for the traffic reasons. To not address this above immediatley ignores basic need.
- Please keep parking away from residential and soccer parents and players far from the fence line- I like the trails and dog park!!!
- Flip dog park and expand to more than 3 acres total to combine large, small park into lakes, move play area to where showing dog park. Too many folks throwing balls in lake, dogs could crush; Don't want to see any cement with sement tables in dog parks- tables away from play areas- Trees with a bunch would be great. The dogs need a good unstructured area to run- Expand dog park to 40 acres would be a great amount of space.

1. RECREATION CENTER
2. AQUATICS CENTER
3. SKATE PARK EXTENSION
4. EDUCATIONAL NATURE LOOP
5. MULTI-USE FIELDS (6)
6. MAINTENANCE YARD/BUILDING
7. PUMP TRACK
8. DOG PARK (THREE 1-AC CELLS)
9. PLAYGROUND EXTENSION
10. ROUNDABOUT
11. OUTDOOR COURTS: 2 TENNIS, 2 BASKETBALL, 8 PICKLEBALL
12. TRAIL CONNECTION
13. NATURE PLAY ZONE
14. RESTROOM
15. PICNIC PAVILIONS
16. MULTI-PURPOSE STAGE

What could be improved?

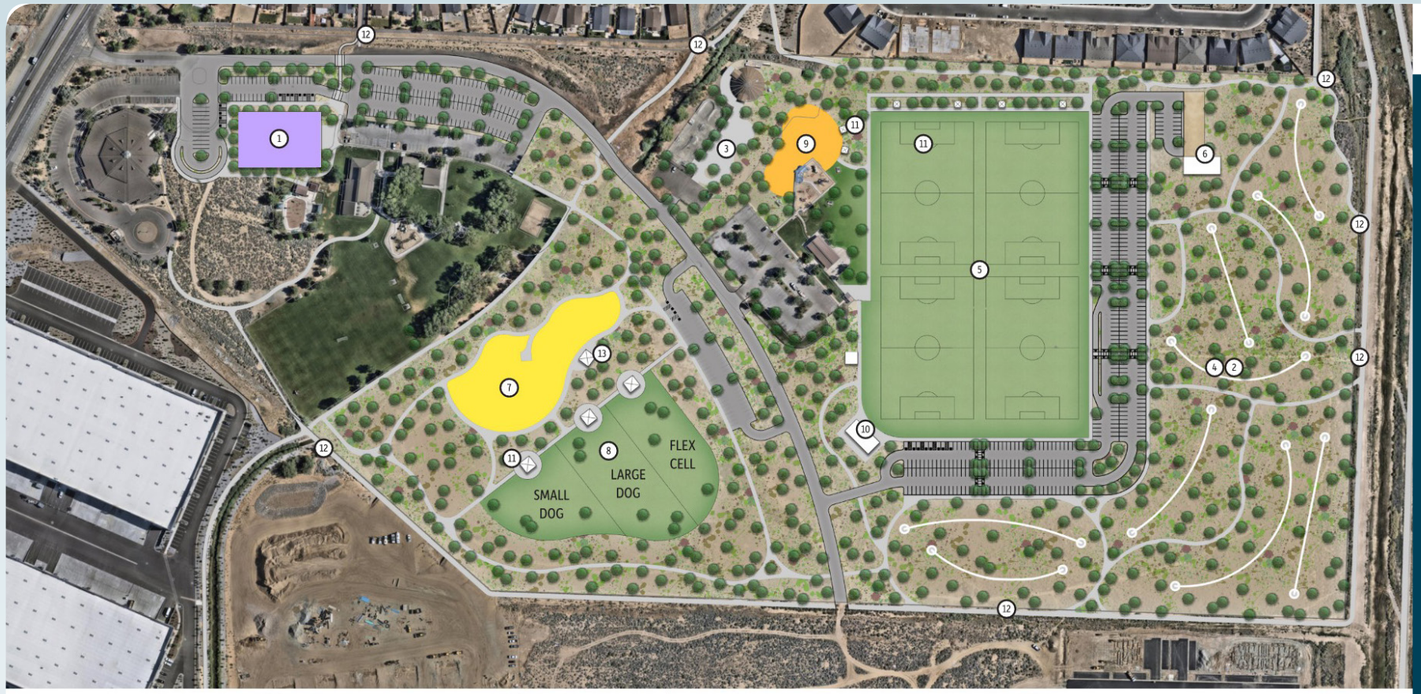

- Don't move music stages. Not a port-a-potty
- Courts should be inside to use in winter; Could take pool/gym from concept #1 & put on #2; longer pool (50m) for long term growth, smim meets bring $; Larger rec. center
- Courts should be inside to use in winter; Could take pool/gym from concept #1 & put on #2; longer pool (50m) for long term growth, smim meets bring $; Larger rec. center
- Need access from north; Senior cenetr w/pool indoor for water aerobics
- Combine the rec/aquatic building
- Pickelball needs a refresh inside the hive as well as outside the courts
- Better in & out access
- Do not like the parking all around the fields; too many fields; no nature area included; not enough multi-use trails
- Pump track-skate park in the same area not next to a dog park.;More restrooms.
- hate the parking and road by evangeline; don't put maintenenace bldg right behind my house.
- Parking closer to concert venues so that handicap & non-ambulatory attendees don't have to push wheel chairs and walkers so far; more restrooms; less pumptrack; more access from north and west.
- Nature play in nature and rec center; more play areas; dogs away from pump
- Hate the new road and parking by the toll brothers residential area. Please add a buffer between houses and fields/activities. (less foot traffic and car traffic please); Add privacy fencing for residential homes.
- Shifting #5 higher to keep parking lots away from residential areas. Eliminate parking lots above #5.
- Lessen and move pump track towards the outdoor tennis. Move dog park towards the industrial side. Double restroom size and move it toward the ORR ditch. Put a smaller restroom/ or even a changing room out by the maintenence yard. Reduced this much parking by 10% or so. Idea! Put picnic areas in a curvy "strip" near the basketball/tennis and give them a seasonal pinch for non-freeze months, if there is really support of icnic areas. Somehow I think of B-day parties at commercial areas. It makes me think maybe picnic areas are an overvalued feature unless there is a drastic change.
- Switch pump and dog park closer with nature trail; remove pump to close to dogs; disc park takes up too much space.

CONCEPT 2

What do you like about this concept?

- Extra parking all over.
- Lots of parking
- Parking; added fields; keeping dog park area in a separate spot from fields
- Parking for dog park away from fields is better; additional fields
- Location of dog park
- Like the new outdoor courts, bathroom access to thos is poor on the concept though
- Multi-use fields with stage; Rec& Aquatics center; Tennis/ Pickleball/Basketball Courts; Lots of parking
- Dog park location & trails; Stage in lower park; outdoor courts for tennis pickleball & B-ball
- indoor facility; more picnic pavillions
- Soccer field location; love where the soccer fields are on 2
- Look relatively less costly except aquatic center
- Definitely like the variety of activities (courts); Rec. center
- The variety of amenities
- Can you join Aquatics and rec center somehow? It can save some space. Low shrubs only on a roundabout.
- like dog park - pump but switch

1 RECREATION CENTER
2 9-HOLE DISC GOLF COURSE
3 SKATE PARK EXTENSION
4 EDUCATIONAL NATURE LOOP
5 MULTI-USE FIELDS (4)
6 MAINTENANCE YARD/BUILDING
7 PUMP TRACK
8 DOG PARK (THREE 1-AC CELLS)
9 PLAYGROUND EXTENSION
10 MULTI-PURPOSE STAGE
11 PICNIC PAVILIONS
12 TRAIL CONNECTION
13 RESTROOM

CONCEPT 3

What do you like about this concept?

- Nothing. Extra Parking. No Pool.
- The extra restrooms
- My favorite, seems achievable and keeps the park a park.
- Keeping the parking lot away from residential.
- Multi-use fields and stage rec center
- Not my favorite; dog park area is okay
- Rec center
- Parking next to multi-use fields is good; No aquatic center to push the cost.
- Stage by grassy area; nature loop in nature; number of soccer fields
- not a lot
- Dog park
- Do like the multipurpose stage. Rec center.
- Very little. If any at all! Maybe if you double the indoor recreation area and promised a aquatic center on other land and not a baby pod center!

What could be improved?

- Move music out of backlot
- No aquatic center- which is good for $$; Not a lot of things to bring money into the area
- Need restrooms near dog park; Need access from north; Center w/pool indoor for water aerobics
- Don't move the summer concert series from its current location; Have indoor pool
- Not sure how much community interest in disk golf there really is…; Please refresh the hive, gets a lot of pickelball use.
- Adding additional amenities. Wast of space with the disc golf course; Add barriers by residential areas.
- No aquatics center; better in and out access
- No flow; Golf too much focus
- More amenities, this seems like a cheap way out & will need to be upgraded w/in 8-10 years. Move pump track from dog area. Add restroom
- One restroom? Who needs this level of pumptrack? Kids will do that any where and most bother going to the park; Aquatic facility?; More access from north and west.
- Rec center w/pool-all together; playground extension, both playgrounds connect to library not enough for kids; road too close to park- danger!; restrooms near park & events.
- No disc golf again, low usage; bigger indoor space; aquatics facility; more parking; why change the current field footprint?
- Parking & soccer is too close to residential
- Add the variety of courts. Move any activities away from Toll brothers homes and add privacy for residential area.
- No or half pump tracks! Golf in winter? Really? Just bury me now! 3rd concept ignores an aquatic center when such was an overwhelming request. Sorry to be harsh but this has my strongest dislike! I think a basic problem may be the ORR ditch upon the parcel and then the library needs protected. Left and right turns for over 20 years. Maybe "the purse" should give the spanish springs library a better location to provide a complex comparable or similar to moana springs.
- don't like orientation of fields for soccer
