

Traffic crashes in Boca Raton are a persistent trend.

7 Average number of crashes per day over the past six years

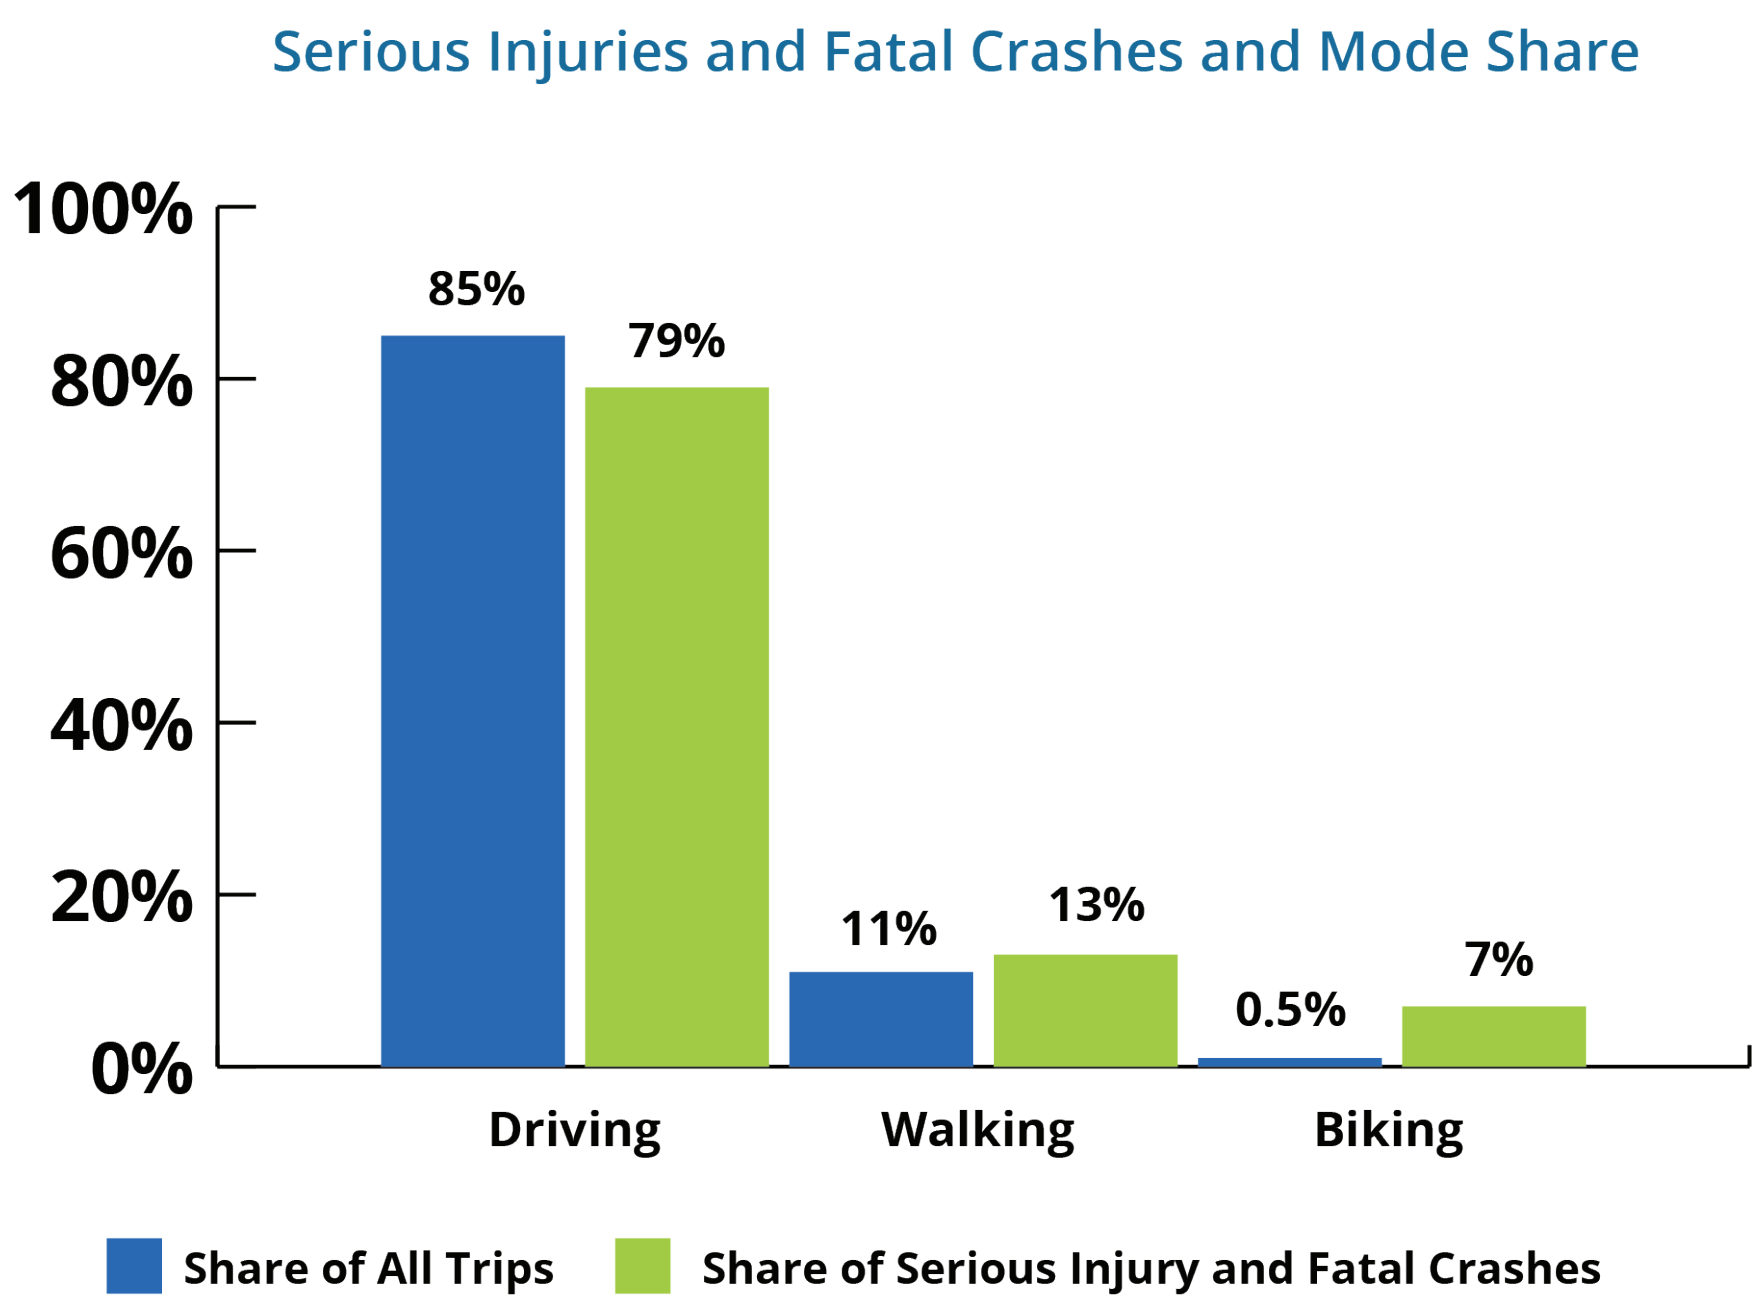

4 Average number of fatal and serious crashes per month over the past six years

The type of road significantly influences the severity of crashes.

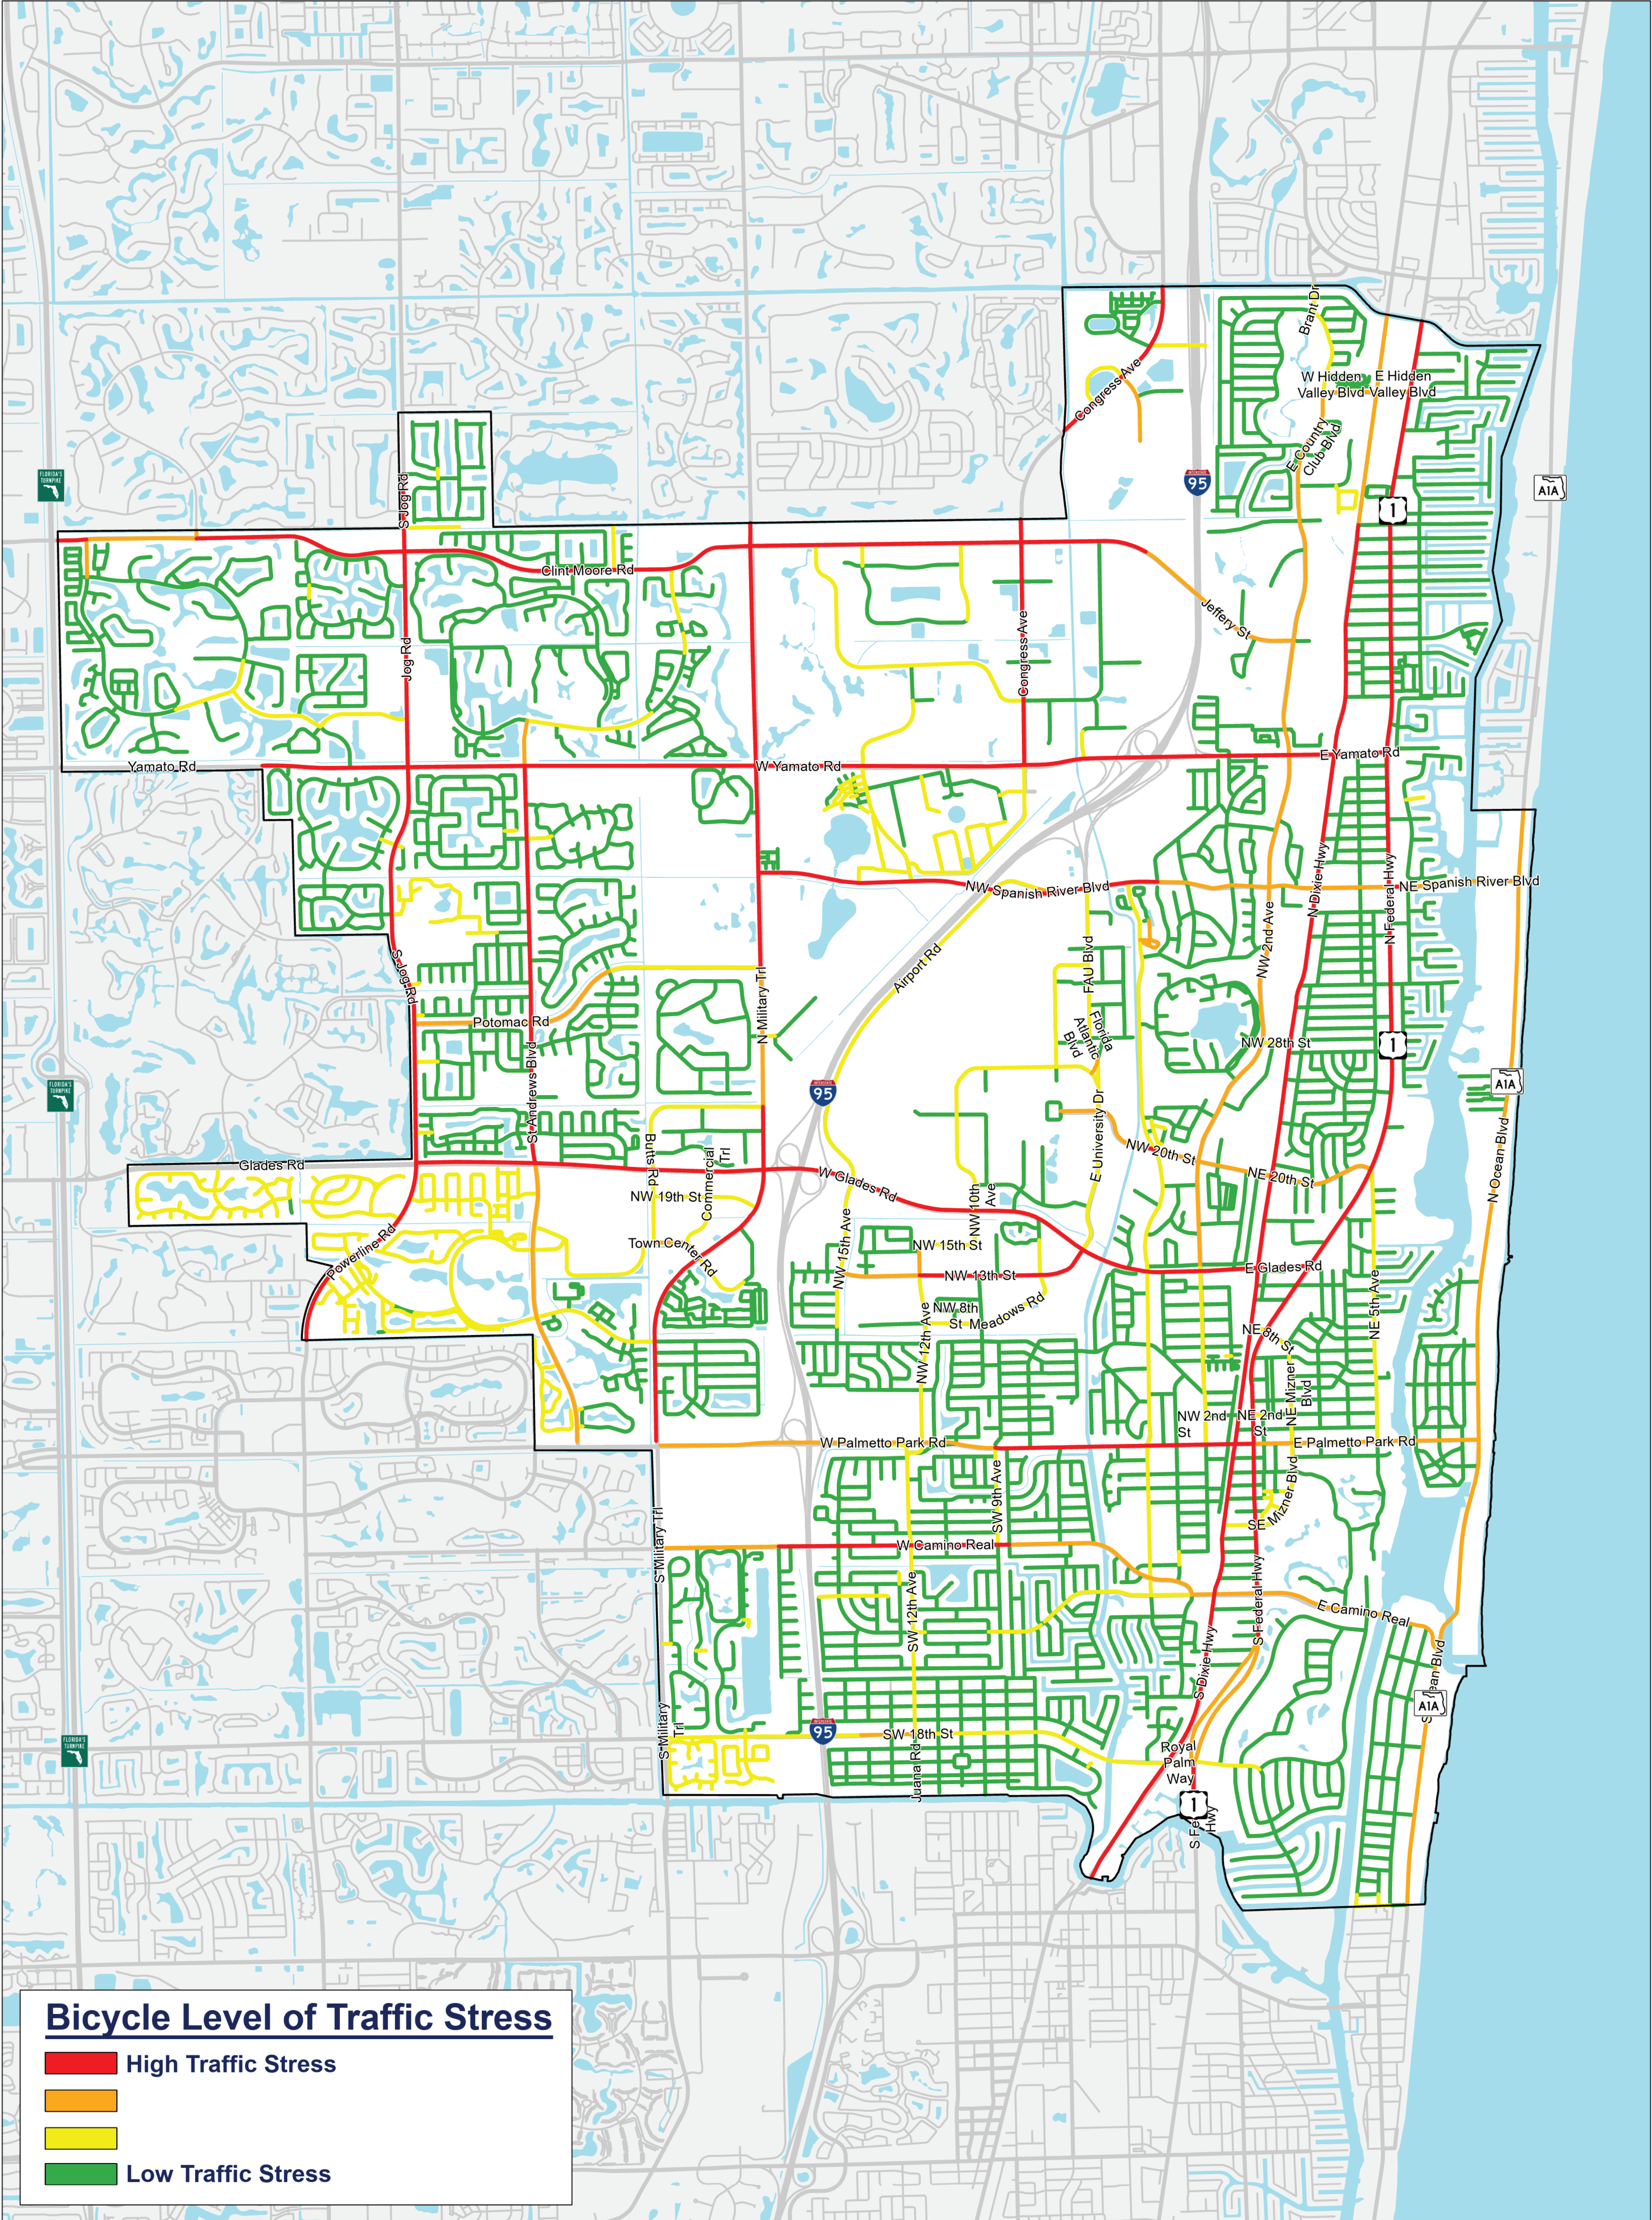

How you choose to travel impacts your safety risk.

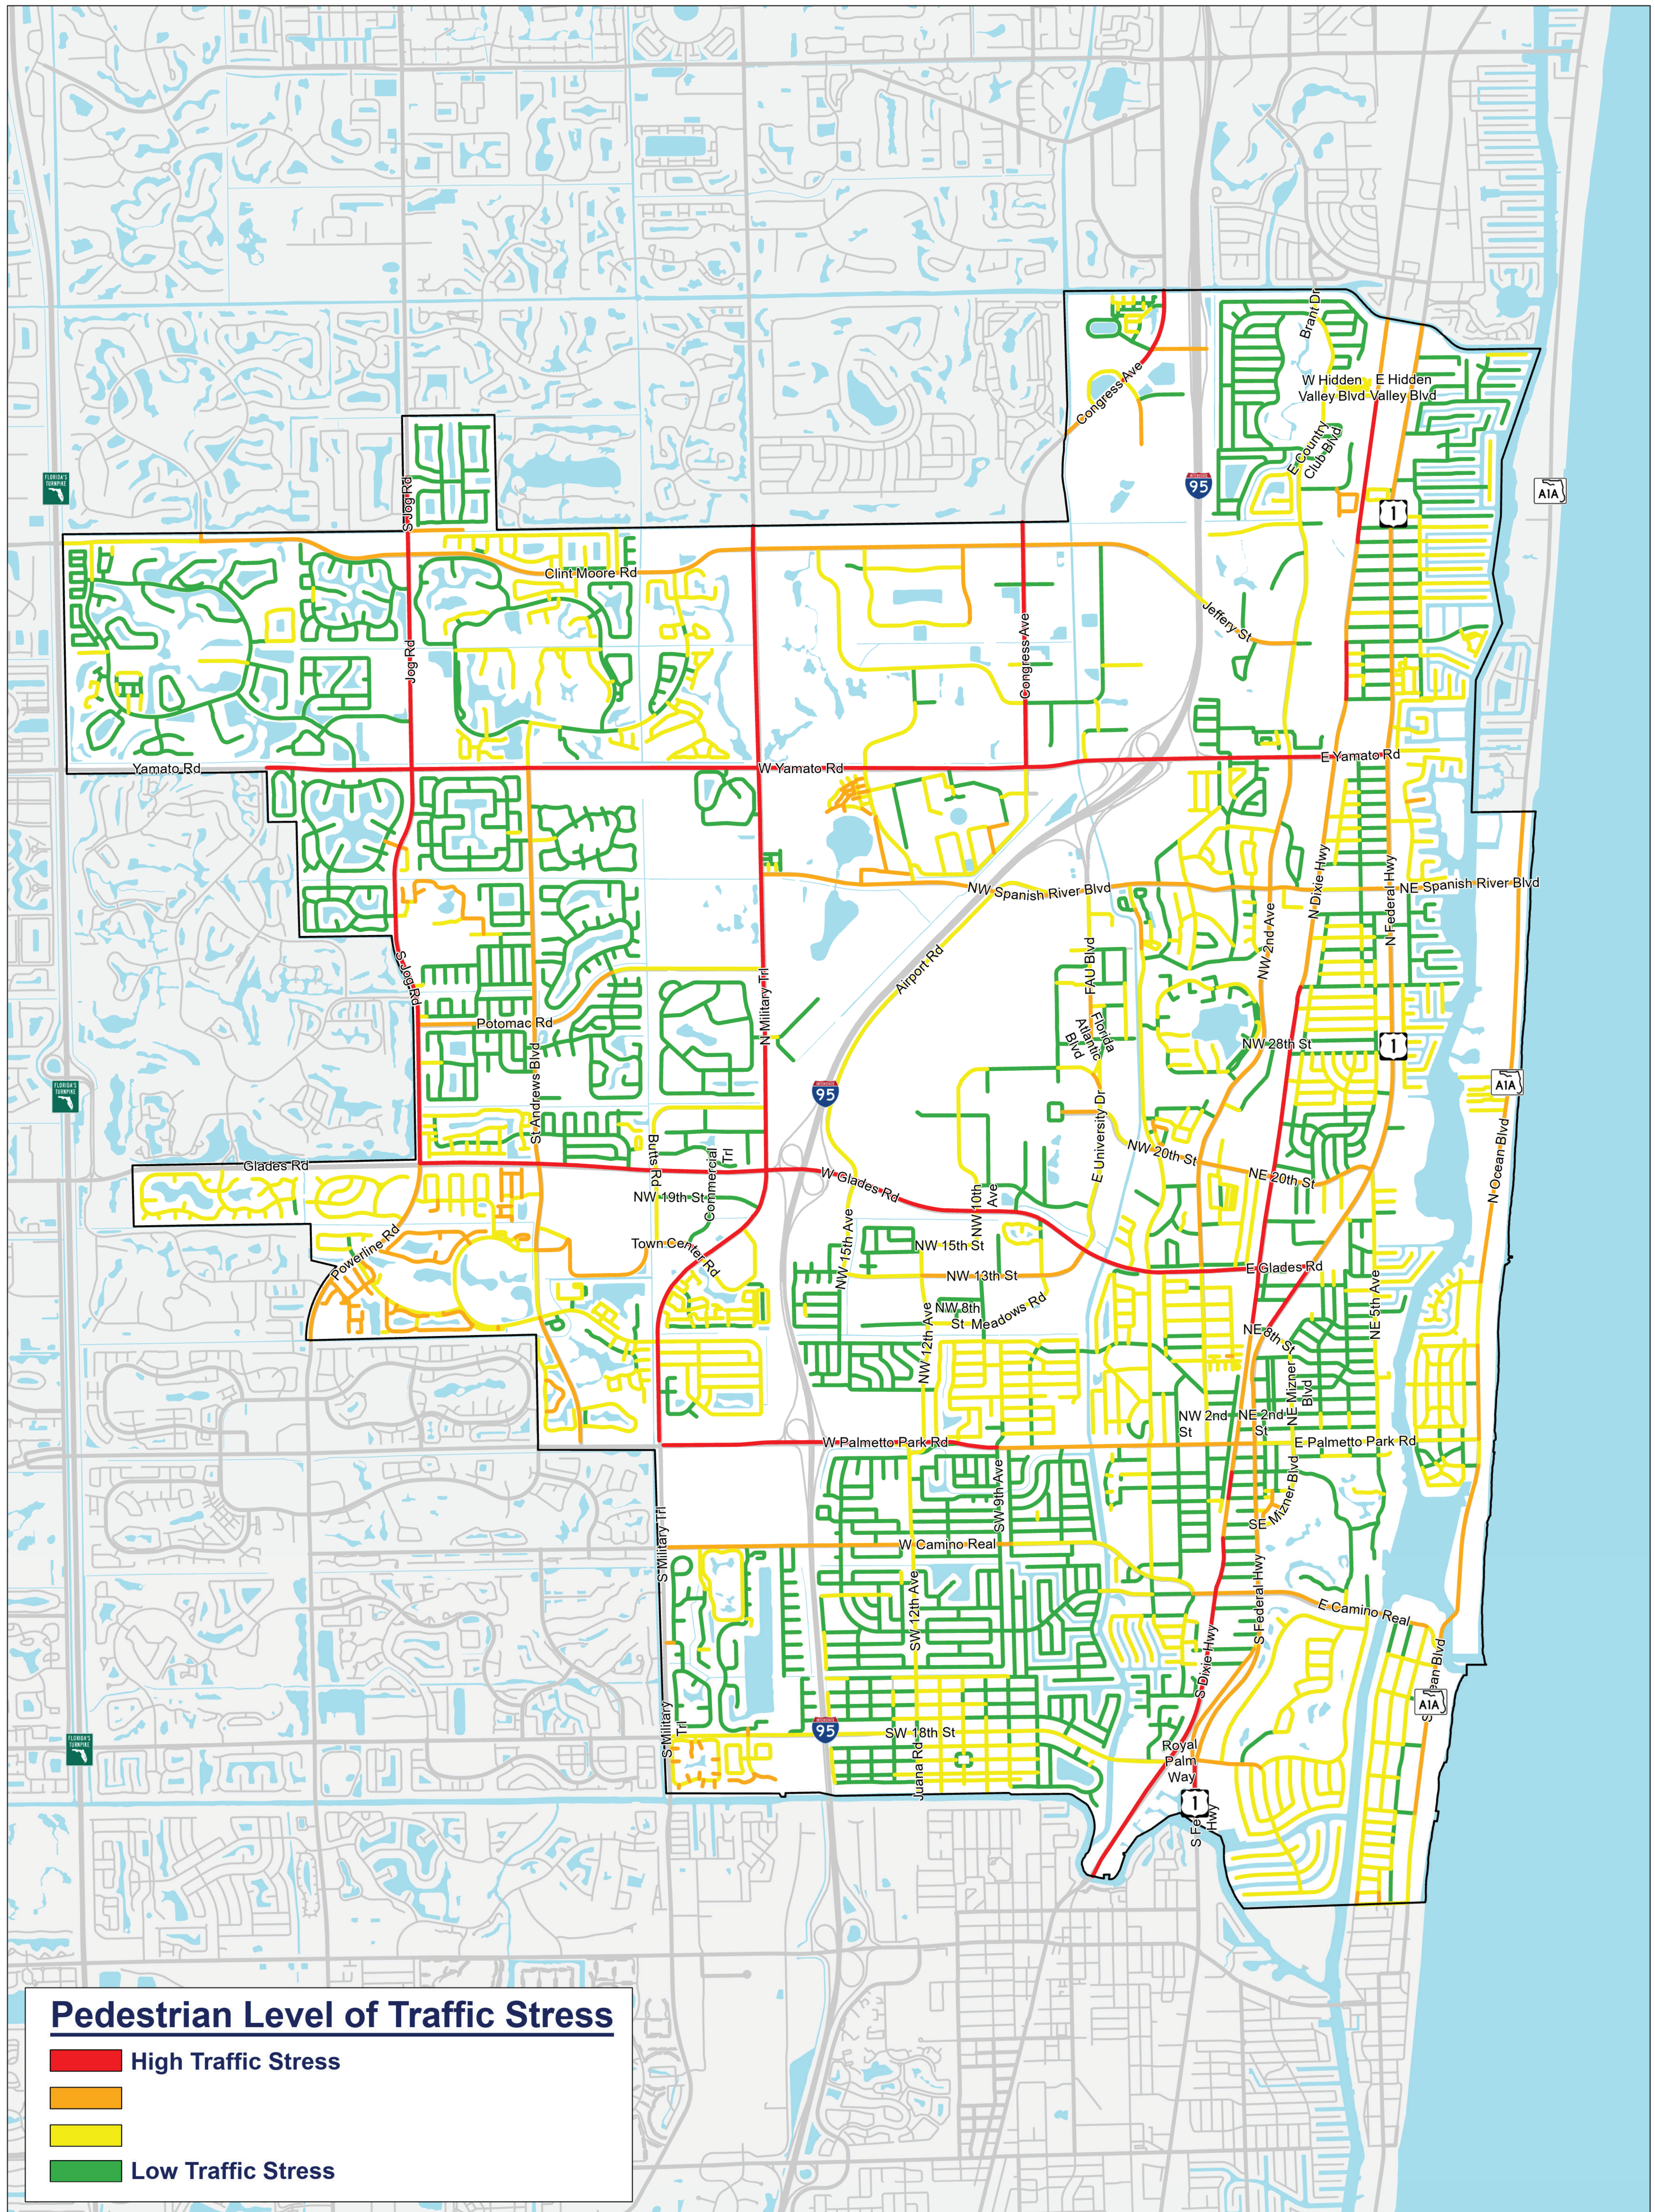

Most of serious injury and fatal crashes are the result of people driving crashing into other people driving. Additionally, people walking and biking are disproportionately involved in serious injury and fatal crashes.

The logo for the Boca Raton Vision Zero Action Plan. It features the words "BOCA RATON" in a white sans-serif font inside a white rectangular box. To the left of the box are three slanted white parallel bars. Below the box, the words "VISION ZERO" are written in a large, bold, white sans-serif font, and "ACTION PLAN" is written below that in a smaller, white sans-serif font. The entire logo is set against a dark blue background.
